

Opløft Sit-Stand Platform

Work active with Opløft - a slim and portable sit-stand platform for a healthier, more dynamic working life.

Our most portable sit-stand desk yet is beautifully slim and light without compromising on quality or stability. The secret of Opløft's strength lies in the unique cross-structure frame, which not only gives the platform a minimalist, classically Scandinavian aesthetic when extended to standing height, but also enables it to fold neatly into its own footprint for convenience. When flat, Opløft is only 30 mm thick and weighs just 12 kg - making it possible to carry between workstations or neatly store away.

9820900	Opløft Sit-Stand Platform	£249.99
9820901	Opløft Single Monitor Arm	£99.95
